Dear Mr. Waters:

As per our conversation on December 8, 1993, Groundwater Technology, Inc., on behalf of Sun/Mid-State Oil Co., is requesting a 45 day extension for submittal of the Comprehensive Site Assessment report for the above referenced site. This extension is requested due to the amount of time required to obtain access to the adjacent property (McDonalds Corporation) for installation of a downgradient monitoring well.

The off-site monitoring well was recently installed on the McDonalds' property on 12/9/93, developed on 12/14/93, and groundwater sampling is scheduled for 12/21/93. The sample results are anticipated to be received within 10 days of the sampling event. If this extension request is approved, the CSA report will be submitted to the Winston-Salem Regional Office of the NCDEHNR by January 21, 1994.

If you have any questions regarding this request or this site, please call me at (919) 467-2227.

Sincerely,
GROUNDWATER TECHNOLOGY, INC.

Teresa Watson
Geologist
